Ask Me Anything (About the 2020 Census)

Tuesday, Jul. 31 | 10:15 am-11:15 am
402 AB
Speakers

**Moderator:** Senator Adam Morfeld, Nebraska

**Speaker:** James Whitehorne, U.S. Census Bureau

After discussing cybersecurity, census preparations and best practices for an accurate count, the audience can ask James Whitehorne from the U.S. Census anything (about the census). Whitehorne is prepared to share information about racial and language minority groups, census funding, where groups are counted and more. If asked.
Census Fun Fact!

- In Fiscal Year (FY) 2015, the 50 states plus the District of Columbia received $589.7 billion from the 16 largest Census-guided programs.
Census Fun Fact!

- The census is based on complete enumeration, **not** statistical methodologies or approximations.
- That means every person in every woodland cabin, city apartment, and everywhere in-between must be counted.
Census Fun Fact!

- The first census was conducted in 1790 and counted 3.9 million people.
- Over two centuries later, things have changed a little bit—the 2010 census counted 308,745,538 people!
Census Fun Fact!

- U.S. marshals and their assistants used to be responsible for carrying out the census—in fact, they were required to do so by an act of Congress.
