Kay Meyer is a Principal Industry Consultant working with SAS’ State and Local Government practice. She brings experience, best practices and strategies to help states establish Centers for Analytics for Government Advancement. Kay has over 25 years of experience in information systems development and implementation across a variety of industries. Prior to joining SAS, Kay spent 18 years in state government and led the efforts in North Carolina to set the strategic vision, definition and implementation for the North Carolina Government Data Analytics Center. Prior to the GDAC, Kay led in the formation of NC’s first enterprise fraud, waste, and improper payment detection program, as well as the implementation of NC’s first integrated criminal justice system, CJLEADS, which supports over 27,000 criminal justice professionals statewide. Kay holds a Bachelor of Science in Management Information Systems from the University of Virginia and a Master of Business Administration from George Washington University.
