About the PTAC Collaborative

• Founded as the result of the March 2017 Inaugural Summit held at International Association of Chiefs of Police (IACP)

• PTAC Inaugural Summit organizers: AdCare Criminal Justice Services, C4 Recovery Solutions, Center for Health and Justice at TASC, Civil Citation Network, George Mason University, International Association of Chiefs of Police, and Western Carolina University

• Named for the collaborative relationship between police, treatment, and community necessary to make police diversion possible

PTAC Collaborative Mission, Purpose, and Cornerstone

- **Mission** – To strategically widen community behavioral health and social service options available through law enforcement diversion

- **Purpose** – To provide national vision, leadership, voice, and action to reframe the relationship between law enforcement, treatment, and community

- **Cornerstone** – PTAC is agnostic as to the model/brand of pre-arrest diversion; which approach solves the problem, fits the local situation, and can be addressed through the behavioral health capacity?
PTAC Collaborative Five Strategic Areas

• **Big Idea/Big Tent** – the PTAC Collaborative leadership team

• **Think Tank** – for behavioral health (drug treatment, mental health) and social services to ensure their equal and critical seats at the table

• **Informing the Field** – for law enforcement focused on learning about developments in the field

• **Research** – for partners interested in developing standard metrics for police diversion research and evaluation

• **Community** – for residents and communities to add their voices and perspectives, and for practitioners already considering or implementing police diversion initiatives
